Irish Customer Contact & Shared Services Awards 2016

Hints and Tips to help your entry submission

DO'S

- We recommend that companies form a project team to gather input and compile entries, it helps to share the workload but also generates valuable insights from all parts of the operation.
- Start working on your submission as early as possible.
- Please read the criteria carefully, note marks to be awarded for each section and do keep within the word count.
- Follow the criteria headings and subsections within the format of your entry. This will ensure that the judges do not have to scan back and forth when scoring your submission.
- Provide clear examples of initiatives and achievements to support your answers.
- Include actual results, if information is commercially sensitive and you cannot include please state this in your submission.
- Limit the number of customer/employee/peer testimonials - certainly no more than 5 in any one submission.
- Within reason include photographs to show contact centre environment, team members and those been put forward for an award.
- Present performance statistics in a graphical format, this reduces word count but more importantly is easier to see trends, results, etc.
- Get someone outside the project team (and ideally the organisation) to read your submission to check clarity and understanding. They can also highlight any areas that may not be clearly understood by someone outside the organisation.

DON'TS

- Don't ignore the criteria it is used to award marks in each category. If you cannot address a particular criterion clearly indicate this so the judges know you have not ignored the question.
- Go over the word count, keep answers concise and to the point. Judges will deduct marks if you go over the word count.
- Avoid in company jargon if using acronyms provide clear definition.
- Do not include material (including graphs) for the sake of it - make sure everything is relevant. Clearly explain any points you are making in graphs, tables and explain what they are highlighting or supporting.
- Do not leave it till the last minute, to create an award winning submission. Plan, prepare and execute within the specified time lines.

Remember closing date for entries is 5 p.m. Monday 12th September, 2016.
